This version of me who is brave enough to tell about herself.

About us.

About all these women who are in me.

About all these colors, emotions and experiences that constitute my "I".

What is the "I" for a human being who constantly goes on facing various situations?

What is "I" for an actress who, with each subsequent role, discovers new layers of herself?

What is the role and what is not?

Where is this border?

Personality eclecticism crammed into one body.

I leave the comfort zone.

I face myself.

Madaleine is me.

*The premiere of 'Madaleine' took place at the Four Cultures Festival in Łódź, in September 2019*
