**[...] When is the best time to plant a tree? Twenty years ago[...].
And when is it not much worse? Right now.
The Overstory, Richard Powers**

Now? Let's wait a little longer. We're not ready yet. And when are we going to be? Are we going to recognise the moment? "Now?" is a story about the decision-making process. What obstacles prevent us from making a decision? What drives us at the moment of choice? Reason, Chaos, Fear, Excitement, Courage, Comfort, Curiosity, Confusion, and Vision. We talk about our perspective on decision-making. We show all crucial and intense emotions in such a difficult moment.

Just one step and so hard to take.
